# MICROSTRUCTURE OF CEMENT-BASED SYSTEMS: VOLUME 370: BONDING AND INTERFACES IN CEMENTITIOUS MATERIALS (HARDBACK)

Materials Research Society, United States, 1995. Hardback. Condition: New. Language: English . Brand New Book. This book continues the MRS series on characteristics and properties of cementitious materials. In Part I, recent advances in microstructure and related characterization of cementitious systems are the focus. Topics include: microstructures of normal cement systems; microstructure of unusual cement systems; image analysis, modelling and fractal analysis applications; and assessment of pore structures. Part II features presentations on interfacial microstructures, as well as information on...

## Reviews

---

*This book is definitely worth acquiring. It normally will not cost excessive. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Prof. Leonard Beahan DVM**

*Very helpful to all of category of people. It really is full of knowledge and wisdom I am quickly can get a satisfaction of reading through a written ebook.*

-- **Ms. Maude Heller Sr.**

*Here is the best publication i have got go through until now. It is actually writter in simple phrases and never hard to understand. I realized this publication from my dad and i suggested this ebook to find out.*
