How to Rhyme Your Way to Metaphor Poems is a passionately reasoned manifesto against dying MFA poetry written in broken prose. It is a how-to assertion, and illustration, of the return to formally metered and rhymed forms in post-9/11 language and sentiment. By writing out loud with your lips, fingers, and ears, this book helps you master the whats, hows, and whys, hands-on, step by step. Using a minimum of technical jargon, the strategy of this volume is to invite high school seniors and college freshmen readers to leap across a canyon of misunderstanding by a musical writing process the book models. The setting is a fictional college class in Freshman English. This little giant of a book frees a poet-to-be to feel at ease and find new creativity composing contemporary formal poetry. It liberates a teacher-to-be to feel at ease coaching students, including skeptical students. It encourages creativity long-term as well, continuing to deepen your poetry the further you take this strategy. An illustrative 14-poem selection of the author's work rich in metaphors is proof of the pudding. References for advanced study appear at the end.
