LASER COULOMB EXPLOSION IMAGING OF MOLECULAR DYNAMICS

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | This book is dedicated to an experimental work on the molecular dynamics following the interaction with laser field. This research project was carried out using high intensity pulsed lasers with near-IR central wavelength. Cold target recoil ion momentum spectroscopy technique - also known as "Reaction Microscope" - and pump-probe approach were used to initiate a dynamics in some diatomic and triatomic molecules (deuterium, hydrogen, nitrogen, oxygen, carbon monoxide and dioxide) with a...

Reviews

This is an amazing ebook that we actually have possibly read. I have go through and i am certain that i am going to going to read yet again again later on. I am just easily could possibly get a delight of looking at a composed pdf.

-- **Emilio Nitzsche V**

If you need to adding benefit, a must buy book. It is actually rally interesting throgh reading time period. It is extremely difficult to leave it before concluding, once you begin to read the book.
