

Topics in Advanced Econometrics: Topics In Advanced Econometrics Linear and Nonlinear Simultaneous Equations v. 2 (Hardback)

Filesize: 2.58 MB

Reviews

A must buy book if you need to adding benefit. It is actually rally fascinating through studying time. Your way of life span will likely be transform as soon as you complete looking over this publication. (Ms. Bernice Rolfson)

TOPICS IN ADVANCED ECONOMETRICS: TOPICS IN ADVANCED ECONOMETRICS LINEAR AND NONLINEAR SIMULTANEOUS EQUATIONS V. 2 (HARDBACK)

Springer-Verlag New York Inc., United States, 1994. Hardback. Condition: New. 1994 ed.. Language: English . Brand New Book ***** Print on Demand *****.This book is intended for second year graduate students and professionals who have an interest in linear and nonlinear simultaneous equations models. It basically traces the evolution of econometrics beyond the general linear model (GLM), beginning with the general linear structural econometric model (GLSEM) and ending with the generalized method of moments (GMM). Thus, it covers the identification problem (Chapter 3), maximum likelihood (ML) methods (Chapters 3 and 4), two and three stage least squares (2SLS, 3SLS) (Chapters 1 and 2), the general nonlinear model (GNLM) (Chapter 5), the general nonlinear simultaneous equations model (GNLSEM), the special case of GNLSEM with additive errors, nonlinear two and three stage least squares (NL2SLS, NL3SLS), the GMM for GNLSEIVI, and finally ends with a brief overview of causality and related issues, (Chapter 6). There is no discussion either of limited dependent variables, or of unit root related topics. It also contains a number of significant innovations. In a departure from the custom of the literature, identification and consistency for nonlinear models is handled through the Kullback information apparatus, as well as the theory of minimum contrast (MC) estimators. In fact, nearly all estimation problems handled in this volume can be approached through the theory of MC estimators. The power of this approach is demonstrated in Chapter 5, where the entire set of identification requirements for the GLSEM, in an ML context, is obtained almost effortlessly, through the apparatus of Kullback information.
