

Conspiracies in Religion, Politics and Science (Paperback)

Filesize: 3.81 MB

Reviews

I just started off reading this article ebook. It is actually written in basic words and not confusing. I am just very happy to let you know that this is the best ebook I actually have read through inside my individual daily life and can be the finest ebook for possibly.

(Dayne Johns)

CONSPIRACIES IN RELIGION, POLITICS AND SCIENCE (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Large Print. Language: English . Brand New Book ***** Print on Demand *****.Internet of things is taking us to uncharted territory. I adore its freedom, anybody with proper portal could voice his or her opinion without hindrance. There is no peer review or scrutiny. If properly used it can be a haven (not heaven) but it can be a place for raging fire/war. The secrecy, misinformation and conspiracy are commoner garden occurrence in the corporate world. I believe conspirators have even penetrated this democratic institution. I could not find a solution to this conspiracy even in the major religions. Linux with its copy-left and sharing philosophy, has become an antithesis to this grand design. I have used this philosophy as a counter thesis to misinformation and conspiracy. This world has produced lot of nice people. I have illustrated only a few of them. The conspiracy should be sunk at all costs. Like a lotus that flower above muddy bottoms, we should do all what we could do to bring the truth to the surface. Why in book form? Internet is fluid, superficial and the contents "Go" by the "Number of Hits", status by nature. In a book one can delve in deeper. I have to make a confession. I have not "fact checked" most of the claims made by certain authors. In conspiracy or speculation, "fact checking" is humanly impossible. Errors are built into the system by repetition and the difference between "fact" and "fiction" becomes almost imperceptible. In this scenario conspiracy thrives. I am one who is averse to lies or deception. I want scientists to be "bona fide" true gentleman / lady and when I find so called scientists, deliberately lie for some personal or corporate gains, it is obnoxious. Unfortunately, I have seen doctors working in alliance with representative from pharmaceutical...
