## Sustainable Development: An Appraisal of the Gulf Region

By -

Berghahn Books. Hardcover. Condition: New. 574 pages. Dimensions: 9.5in. x 6.2in. x 1.5in. This is clearly the most comprehensive overview of sustainable development in the Gulf, a strategic region within the global economy. . . What is particularly innovative is the last section on cultural issues, ranging from collaborative research methods to indigenous knowledge. . . the inclusion of health issues, together with a discussion of the cultural turn in sustainability, including participatory approaches, make this book an exemplar of the next generation of thought and knowledge development in the area of sustainable development. Carl Maida, University of California, Los Angeles This volume amounts to a well edited, comprehensive, collection of sustainable development papers, strongly introduced and concluded by the editor, on a region that surely no one could doubt can only gain from the salutary environmental analysis time after time it offers. . . While a regional study, it is fully alert to current theoretical issues in the general sustainable development literature at large while at the same contributing to them. It is. . . certainly deserving to become required reading for all tertiary education institutions. Raymond Apthorpe, SOAS University of London With growing evidence of unsustainable use of the...
